DETAILED ACTION

Allowable Subject Matter

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance: The most applicable prior art does not disclose, nor does it reasonably suggest a photonic crystal material having a photonic band-gap attached to the polished surface of an optical fiber, where the photonic band-gap is adjusted to reflect a specific wavelength returning to the optical fiber. Deliwala (US 6944369) discloses an optical coupler having an evanescent coupling region where a photonic crystal structure is formed within a planar waveguide.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments, see pages 2-3, filed 12/19/2005, with respect to claims 1-3, 6, 7, 11, and 12 have been fully considered and are persuasive. The 35 U.S.C. §103(a) of claims 1-3, 6, 7, 11, and 12 has been withdrawn.
